

**POLICY STATEMENT**

As part of our commitment to Health & Safety, Steele & Bray Ltd recognise the importance of strict adherence to measures introduced to maintain a healthy environment. To this end all work practices employed by Steele & Bray Ltd will ensure that environmental factors such as pollution of air, water or ground is kept within the acceptable levels determined by legislation, codes of practice and environmental agencies.

- All work methods will include measures to minimise nuisance from smoke, dust and noise.
- Waste and debris will be kept to a minimum with regular disposal to approved sites, by approved carriers.
- Storage of materials will be such that environmental issues will take priority in deciding location and method of control.
- All liquid materials will be stored in containers identified as being appropriate to the nature of their constituent parts and uses. Control of such materials will be in accordance with the recommendations of any current COSHH Assessment.

Enforcement of this policy will be in accordance with the Company Health & Safety Policy. Any breaches will be dealt with in accordance with the Company discipline code.
